Errata #5

The following errors have been found in the final Land and Resource Management Plan for the Payette National Forest. As with previous Errata, these changes represent factual corrections or clarifications that have no bearing on the analysis completed or the decisions made by the Responsible Official in the Records of Decision for the Forest Land and Resource Management Plan. Changes are presented here to correct inconsistencies between the final documents and technical report or project record information, and to help make the decisions easier to understand and implement for forest managers.

Glossary

The following changes are made to the Glossary to update definitions to coincide with the final 2005 rule for Travel Management that updated 36 CFR 212.2 (Federal Register, Volume 70, No. 216, pp. 68287-68288; published November 9, 2005):
